

Double Impulse Foot Sealers

w-series

features

- Sits on a rectangular stand for stability
- Plug-in electronic timer
- All metal construction
 - Heavy duty
 - No warm-up time
- Beeps when seal is done
- Single and double switch selector

Easy to Operate: Set the timer, insert the material between the seal bars, step down on the foot board until the timer light goes off. Continue to step on the foot board an additional 2-3seconds to set a perfect seal.

W-300T, W-450T, W-600T

W-Series are ivory in color and are available in 12", 18", and 24" with a 5mm seal width. The sealers can seal materials up to 20 mil total thickness. They are equipped with a single and double selector switch. Depending on the thickness of the material, the user has the choice of using 1 or 2 elements for the top and bottom heating. The stand is made of a rectangular frame for safety and stability. Both sealers and stands are steel constructed for quality and durability. The sealers also come with an adjustable work plate. The manufacturer's replacement kit includes 2 elements.

*The sealers are shipped in 2 boxes.

***Option:** A taller stand & tension rod are available for stand up operation. The stand adds 10" in height.

specifications

	Power Supply	Power (watts)	Weight (lbs.)	Seal Width	Dimensions (L x W x H)
